All I ask is that you avoid devaluing the products. This hurts not only me, but also you and everyone else trying to sell these. 🙄

In order to maintain the high value of the products I create **AND** to avoid people engaging in 'Price Wars' by simply trying to sell for less than their competitors, I have the following pricing suggestions.

Suggested **Minimum** Retail **with** any resale rights - \$37 or more.

Suggested **Minimum** Retail **without** any rights - \$17 or more.

If you choose to sell for less than the suggested prices then you will be devaluing these products and your license will be made null & void.

I understand that there is a market for low-priced products and if this is the market you are targeting then I ask you kindly to not purchase my products.

There are many other products you can locate & purchase that have a lower price point and you would be able to sell in the lower-priced market place.

* If you make substantial changes to my video products, meaning...

1. replace my voice with someone else's
2. create and use entirely new graphics
3. change the title of the product and each video

Then you can price the new product of your creation at any price you want.

Thank you for helping maintain the value of these products by complying with these terms.

Sincerely,
Steve Dougherty
